2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See "**Suggestion for determining withholding**" below for more information on using this table.

General Instructions

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment from your individual retirement arrangement (IRA). See below for the rules and options for the payment. For more information on withholding, see Pub. 505, *Tax Withholding and Estimated Tax*.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding election will generally apply to any future payment from the same IRA. Submit a new Form W-4R to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on Line 2. IRA distributions payable on demand are treated as nonperiodic payments. The default withholding rate may not be appropriate for your tax situation. You may enter "-0-" on Line 2 to have no federal income tax withheld. See the specific instructions section for more information. Generally, you can't elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments delivered outside the U.S. and its possessions.

Note: If you don't give Form W-4R to your payer, don't provide an SSN, or provide an incorrect SSN, the payer must withhold 10% for federal income tax and can't allow a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or default rate) remains in effect until you submit Form W-4R.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*, and Pub. 519, *U.S. Tax Guide for Aliens*.

Specific Instructions

Line 1b. For an estate, provide the estate's employer identification number (EIN) in the area reserved for "Social Security number."

Line 2

Enter a rate between 0 and 100 on Line 2. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables (above) to help you select the appropriate withholding rate for this distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the tax rate on each additional dollar of income you receive above a particular income amount. Use the table to find a withholding rate for amounts above the total income level in the table.
